- DMX512 output

## Introduction

Accent DMX stations are simple to use and operate. Each station supports up to 48 dimmers. Room 1 has dimmers 1-48, room 2 has dimmers for 49-96, and each additional room increments in blocks of 48 to a maximum of 8 rooms. Room selection is via dipswitch on the back of each station.

Each station has a built in IR port for use with the included IR remote programmer. The programmer allows the operator to record, modify and playback presets on each station. Designed to fit in a single gang back box, these stations provide a simple-to-use control interface. Presets can be selected at

the touch of a button and the integrated raise/lower keys allow the operator to master an entire preset proportionally.

TYPICAL RISER FOR UP TO EIGHT STATIONS

BACK BOXES BY OTHERS
