

# classicPalettell

There's so much that's new with Palette. And so much that you already know.

Clean, elegant, and very, very powerful, classic Palette II is a thoroughbred. Starting at 150 channels, classic Palette II can be expanded to 3,000 channels. And with two playbacks and 32 submasters, classic Palette II will eat up complex shows, easily – elegantly.

classicPalettell Lighting Control Console

## Features

**Introduction**

Strand's new Palette consoles build on the most successful lighting control operating system to bring you PaletteOS, a high-resolution point/click graphical environment to unleash your creativity and speed up workflow. PaletteOS harnesses the power of Windows to provide a familiar, user-friendly environment for either the console or the Off-Line Editor.

classicPalettell is powerful - with up to 3,000 channels of control and amazing automatic focus group controls that will slash your programming time. Palette has a powerful web browser that lets you configure and monitor your network and interact directly with Strand's award-winning C21 dimming systems. Right there on the console screen.

console, leveraging industry-standard technologies to make it robust and future-safe.

Palette's brain is a rugged independent PC that can be swapped in seconds. Palette has a generous 100GB hard drive, or you can save your shows anywhere on the network. You even get a shiny new USB key for show storage. Oh, and you can even convert your old 300 / 500 series show files so that no one gets left behind.

**92803, 92804, 92805, 92808, 92809 classic Palette II Memory Console with 150, 250, 500, 1000 and 1500 channels with 32 submasters**
